

Kinetic Energy Press, in conjunction with Forensic Accident Reconstructionists of Oregon and the Washington County Sheriff's Office, presents:

1st Annual Crash Investigation Skill Building Conference

February 10 and 11, 2010

215 SW Adams Street, Hillsboro, OR 97123

0800-1700 hours daily

DPSST and ACTAR approved for Training Credits!

Only \$25.00 per person for two days of intensive training!

Make plans now to attend this valuable training conference designed to build crash investigation skills for all levels of collision investigators (basic scene response to accident reconstruction). Training provided by court-recognized experts including Rick Robertson Ph.D, Kent E. Boots, ACTAR (FactualDiagrams.com), and Robert Stearns, ACTAR, publisher and author. Topics presented will include:

- Crash Injuries and the Correct Identification of Occupant Seating Positions
- Best Practices in Forensic Measuring/Diagraming of Crash and Crime Scenes
- Crash Scene Photography
- Identification and Interpretation of Roadway and Vehicle Evidence
- Collision Physics and How to Demonstrate Crash Physics in Courtroom Settings
- Case Studies in High Speed Crash Events
